EDUCATION

- B.Sc. Information Technology**
Virtual University of Pakistan
2022 – 2026
- Intermediate — HSC**
The SM College
2019 – 2021
- Matriculation — SSC**
The Citizen Foundation (TCF)
2017 – 2019

TECHNICAL SKILLS

- Microsoft Excel**
- Data Cleaning & Transformation
 - Pivot Tables
 - Charts & Dashboards
- MySQL**
- Joins, Aggregations, Subqueries
 - Data Cleaning & Deduplication
 - Database Design
- Power BI**
- Power Query & Data Modelling
 - DAX Measures & Calculations
 - Interactive Dashboards
 - Slicers, Drilldowns & KPIs
- Python (learning)**
- Pandas — Data Analysis
 - NumPy — Numerical Computing
 - Matplotlib — Visualisation

BUSINESS SKILLS

- Commodity Price Analysis
- Supplier Evaluation
- Quality Assessment
- Market Intelligence
- Procurement Reporting

SOFT SKILLS

- Communication
- Adaptability
- Decision Making
- Team Leadership

WORK EXPERIENCE

Import & Sourcing Analyst2023 – Present

Dadasons Private Limited · Karachi Cotton Exchange

- Reviewed and compared international cotton offers, evaluating price, quality grade, and market demand to shortlist the best options for buyers.
- Tracked offer history and price movements in Excel to monitor supplier trends over time.
- Communicated directly with international shippers to gather market intelligence on pricing fluctuations and cotton availability.
- Prepared shortlisted offer summaries for management, presenting ranked options based on multiple sourcing criteria.

Quality Department Analyst2021 – 2023

Dadasons Private Limited · Karachi Cotton Exchange

- Inspected cotton quality before and after purchase, including field visits to verify buyer claims and ensure goods met agreed standards.
- Maintained Excel-based records to track inspection results, product grades, and shipment status across purchases.
- Spotted recurring quality issues by reviewing inspection data in Excel, flagging patterns to the team before finalizing purchases.
- Prepared documentation for claim handling and performance reviews used across departments.

PROJECTS

Sales Performance DashboardPower BI

- Built an interactive dashboard tracking monthly revenue, regional performance, top product categories, and customer trends.
- Implemented DAX measures, slicers, and data model relationships to enable drill-down business analysis across multiple dimensions.

Cotton Offer & Pricing InsightsPower BI

- Used anonymized real-world cotton trade data to visualize price trends, supplier comparisons, and seasonal fluctuations.
- Designed metrics that reflect actual procurement KPIs — combining real industry knowledge with BI tooling.

SQL Data Cleaning & AnalysisSQL / MySQL

- Performed end-to-end data cleaning using joins, GROUP BY, filtering, and deduplication on a raw messy dataset.
- Produced clean, structured, analysis-ready datasets suitable for reporting and dashboarding.

Beauty Services Web ApplicationHTML · CSS · JS · PHP · MySQL

- Full-stack university project with booking management, service listings, admin dashboard, and user authentication.
- Implemented complete CRUD operations and relational database structure from scratch.

Complete project files are available on my GitHub profile, and PDF walkthroughs are listed on my portfolio — both links are in the contact section above.
