SUMMARY

IT graduate with 5+ years of experience in international cotton trading and import sourcing, with hands-on experience analyzing business and market data to support data driven decisions. Skilled in evaluating multi factor data, identifying trends, comparing business options, and maintaining structured records for accurate reporting and analysis. Proficient in Power BI, SQL, and Excel, with experience transforming raw data into clear, actionable insights.

WORK EXPERIENCE

Business Operations & Sourcing Analyst – Dadasons Pvt Ltd 2021–Present

- Analyzed and evaluated offers from multiple international shippers, factoring in quality, quantity, price, and market trend data to support sourcing decisions
- Processed and compared large volumes of offer data across platforms to identify the best fit options against buyer requirements
- Tracked and analyzed local and international market trends to inform pricing and sourcing strategy
- Compiled and organized offer data into clear, structured formats for buyer review and decision-making
- Supported price negotiations using market and offer data as the basis for recommendations
- Coordinated with logistics and quality teams, using shipment and inspection data to track process from procurement through delivery
- Analyzed claim-related data to identify discrepancies and support fair resolution between parties
- Monitored warehouse inventory data to support stock accuracy and reporting

EDUCATION

- **Bachelor of Science Information Technology** | Virtual University of Pakistan | 2022–2026
- **Intermediate Commerce (HSC)** | The SM College | 2020–2021
- **Matriculation Computer Science (SSC)** | The Citizen Foundation | 2018–2019

PROJECTS

City Care Hospital Dashboard | Excel · Pivot Tables · Charts

- Built an interactive Excel dashboard to monitor patient, billing, and operational KPIs through Pivot Tables, charts, and summary reports.

Cotton Import Dashboard | Power BI · Power Query · DAX · Star Schema

- Built an interactive Power BI dashboard to analyze cotton import data, tracking volume, value, origins, payment performance, and key market trends.

KEY SKILLS & STRENGTH

Data Analytics & BI

- Power BI
- SQL
- Excel (Pivot Tables, Dashboards)
- Python (Pandas, NumPy, Matplotlib)
- Data Cleaning & Preparation
- Business Intelligence (BI) Reporting
- Data Visualization & Reporting
- DAX, Power Query, Data Modeling

Analytical & Business Skills

- Market & Trend Analysis
- Data-Driven Decision Support
- Data Interpretation
- Problem Solving
- Stakeholder Communication
- Documentation & Reporting
- Team Leading
- Claim Handling

Domain Experience

- Sourcing & Procurement Data Analysis
- Quality & Claims Data Review
- Inventory & Shipment Data Tracking
- Supplier & Performance Analysis
- Market Trend & Pricing Analysis
- Business Operations Reporting
- Cross Functional Data Coordination
- International Trade & Supply Chain Data
